

Your Well Being is our #1 Priority

Please take a moment to review our updated policies and procedures to ensure you have a magical experience each time you step into Zooga upon your return. Below are just a few of the several changes we are implementing - all of our changes are designed with your safety in mind, to support social distancing and to ensure each studio environment is clean, mindful and compliant with CDC guidelines.

Schedule + Reservations

Our studio schedule will be limited to reduce in-person traffic and keep our teachers and students safe. Reservations will be required for all classes (no drop ins). Please download our app for quick & easy bookings!

30 Minutes Between Classes

We have added at least 30 minutes between classes to carefully turn over the studios, sanitize all surfaces, and disinfect the space.

Limited Class Sizes

Current class sizes will be significantly limited, so kiddos and adults can stay spaced out and compliant with current social distance and local guidelines.

Employee Health Checks

We are requiring all our team members to pass daily temperature checks and health scans, and wear face masks when appropriate.

Student Health Checks

We're also requiring all our students, parents and caregivers to pass daily temperature checks and wear face masks when appropriate.
